

Nivis

Short Band Bio as of February 2023

In 2020 Fjolla – only 16 years old at that time – and Johannes found the Indiepop Band Nivis.

Fjolla's unique and velvety voice shapes Nivis' sound that employs classic indie guitars as well as carefully designed synthesizer sounds. During corona restrictions they produce over 20 songs, four of which are already released on spotify.

Their lyrics are streaked by self-doubt and melancholy but from such an authenticity that there's only one conclusion: they sing about personal experience.

„We write sad songs about sad stuff. Have fun with it.“
